## COVID-19 COMPETITION MODEL

### BAJA SAE MEXICO 2021

BAJA SAE Mexico is a competition endorsed by SAE International, where teams from different universities have the opportunity to show their work done for a developed prototype Baja SAE vehicle as well being tested in dynamic validations. Newly created teams can participate as a build up experience, so they have the opportunity to learn more about the competition in person as well as present in static tests either in person or virtual for teams that do not have a physical vehicle.

In the 2021 competition, teams must compete into a hybrid model. The hybrid model will place all static events (Cost, Design and Sales) in a “Virtual Presentation” knowledge event, and all dynamic events (plus engine check and technical inspection) in an “In-person Validation” event. This means that teams which couldn't participate in the Virtual Presentation, they can assist to the In-person competition as team viewers in order to experience how in-person competitions takes place. **The Virtual competition and the In-person will be awarded as separate events.**

These rules are applied due to the possible travel restrictions. Some changes have been made to modify the 2021 competition season due to operating this hybrid model. At this time, SAE Mexico will not allow teams to register for more than two vehicles for Baja SAE Dynamic Event.

Plans provided in this document are TENTATIVE - SUBJECT TO CHANGE as conditions surrounding the COVID-19 pandemic change regarding federal, state and local guidelines.

Every attempt will be made to minimize the risks of exposure to the virus. New processes and procedures are being developed and will be put into place for events going forward.

Ultimately, it is your responsibility to assess the risk to you, both on-track and off, and to make the decision on whether or not to participate. If you are feeling unwell or are experiencing symptoms such as fever, cough, or shortness of breath please stay home. If you have been in contact with someone who has been experiencing these symptoms in the last two weeks, please stay home.

SAE Mexico and local organizers did everything on this year competition to ensure the best experience possible. We may need to make changes as we get closer to onsite dynamic events. We will do our best to keep teams informed and prepared. We encourage teams to contact us with questions.
